

select_list_slil :

The diagram illustrates the structure of the `select_list_slil` variable. It features a large, rounded rectangular container. Inside this container, on the left side, is a small right-pointing triangle. To the right of this triangle is a smaller, horizontally-oriented rectangle with a double-line border. Inside this inner rectangle is the text `<value_expression_pls_sli>`. A horizontal line extends from the right side of the inner rectangle to the right edge of the outer container. From the bottom-left corner of the outer container, a line extends downwards and then horizontally to the right, ending in a large right-pointing triangle.
